

Innovation through Science

Gain valuable experience and advance your career.

Patent Engineer New Technologies m/f/d

Join an international team of cutting-edge researchers exploring the technologies that will shape our future. Join the Honda Research Institute Europe, in Offenbach, Germany!

We are working on topics ranging from artificial intelligence (AI), robotics and mobility to energy – and you can be part of it. We're looking for a patent engineer to turn our ideas into patents.

This offer is initially limited to a two-year contract.

Your responsibilities

You will be responsible for our patents through their whole lifecycle:

- Identifying patentable ideas with our research teams
- Discussing and helping in sharpening these inventions
- Researching state-of-art concepts
- Drafting and filing patents together with our researchers and our patent attorneys
- Consulting management in patent lifecycle decisions
- Timely management of relevant formalities
- Consulting and support in IP agreements with collaboration partners

For all these tasks you will be working with a team of researchers, patent attorneys or management.

Your profile

- You have a scientific or technical university degree and strive for a professional career in patent and innovation protection
- Initial experience in patent work is a plus, e.g. in the interpretation or evaluation of patent specifications and in the preparation of patent applications
- You are curious with a high level of interest in technical/scientific questions
- You have a track record of conceptual and structured work paired with an ability to analyze, evaluate and solve concrete problems
- You have strong communication skills and good language skills in German and English

Our strengths – your benefits

- Exciting combination of basic research with applied research
- Thorough introduction into our research topics and processes
- An open atmosphere with a great multidisciplinary, international team
- Participation in international conferences and workshops
- Flexible work-time regulations
- Various social benefits including an attractive retirement savings plan and participation in the Honda Car Leasing Program

We look forward to hearing from you.

To make initial contact, please submit your application online mentioning your earliest starting date and your salary expectations to Horst Mangold, PME – Personal- und Managemententwicklung, Postfach 1334, 55206 Ingelheim / Germany, at:
